CAR HAIL DAMAGE REPAIR

Our shops specialize in repairing hail damaged to vehicles. We use Pointless Dent Repair (PDF) as well as traditional repair methods. We focus on the quality and cost of each car hail repair to make the best decision regarding removing your car's dents at our body shop. Using the best hail dent repair tools and technicians available we return your vehicle to perfect condition.

COLLISION REPAIR

The first concern is often whether if the vehicle is repairable. As our body shop will be responsible to estimate and determine the extent of repairs to prevent unexpected surprises. Should hidden damage be exposed during your car repair.

CHASIS AND FRAME ALIGNMENT

We offer full-service capabilities to align damage frame or foreign and domestic cars and trucks by measuring system will straighten heavy impact damage to your vehicle structure by reversing the forces of the collision. With up to 10 tons of pulling power the strongest chassis members can be realigned. Using the measuring beams and gantry returned accurately to the manufacturer's specification.

WHEEL ALIGNMENT

A pencil beam of light is reflected between all four wheels. This is accurate to within 0.5 mm allowing our technician to check and adjust tracking, camber, castor to obtain optimum road holding and even tire wear.

WELDING

Pushed spot welding and MIG Welding is carried out to a high standard of workmanship, using factory approved methods to protect structural integrity. If you have an older vehicle requiring chassis welding or structural box section. Re-fabricating and welding to comply with MOT standards, we can provide this service.

MINOR ACCIDENT BODY REPAIR

Repairs for these car accident repairs typically include repairing or replacing fenders, bumpers, doors and hoods. They almost always require painting parts of your car and include mechanical work.

Our body shop technicians are highly skilled and trained and care about every repair. We use an extensive preparation process and high quality Sikkens paints for a factory finish. We match the paint to your vehicle and blend the paint into adjacent doors and fenders when needed to mask the repair.

Discover the difference of Quality

DOOR MIRRORS AND TRIMS

Door Mirrors are color coded; it's a common problem in our narrow streets for these to be damaged. Covers for mirrors may be available separately and can be replaced and painted.

PLASTIC AND FIBER REPAIR

Most plastics and fiber can be welded and reformed prior to repair and re-spray by our experienced trained technicians.

PAINT MIXING SCHEME

PPG paint is mixed on site to match your vehicle unique color. PPG is a premier paint company used by many car manufacturers on the production line. This ensures a superb color match and a long lasting gloss finish.

PAINT BOOTHS

This is a self contained room purely vehicle. Fan assisted filtered air maintained at a regulated temperature, ensure a clean top quality paint finish. Temperature of up to 80 degrees centigrade are used to bake and cure the paint for a tough durable finish. We have three booths located in our workshops giving flexibility and availability all time and assure fast delivery.

ITS YOUR ROAD.... COMMAND.....

MACHINE AND HAND POLISHING

For minor paint blemishes and scratches, or to restore color that has weathered and faded-machine polishing can be an economical solution in some cases.

SPARE PARTS

Most plastics and fiber can be welded and reformed prior to repair and re-spray by our experienced trained technicians.

PAINT MIXING SCHEME

Purchasing specialist is availability to supply of genuine parts for all kind of cars and trucks at competitive rates.

Including Clutch, Assembly, Fly Wheel, Plate, Coolant, Hoses, Thermostats, Water Pumps, Radiators, Drive Axles and Drive line Axles, Half Shafts, Batteries, Alternators, Solenoid Switches, Belts and Pulleys, Oil and Fuel pumps, injectors, Valves (Exhaust and Intake), Filters, Oil, Fuel & Air Filters, Sparks Plugs, Coils, Fuse, Wiring, Relays, Shock Absorbers, Struts, Blades, Motor, Driers, Compressors, Condensers, Evaporators, Brakers Brake, Shoes Drums, Brake Pads, Lighting and Bulbs, Switches, Door Locks, Catalyst Converters, Silencer - Without compromising of the safety, economical repairs can be alternative expensive replacement parts to work within approved budget.
